

Hollie Sweetenham

Here is a little speech about my time at Tavcom:

I started working for Tavcom in October 2004 till September 2008, Tavcom was a family run business which at the time was located at Abbey Mill.

I was the certificate administrator; this was a very busy role ensuring all certificates were processed correctly and in a timely manner. Occasionally I would help out printing some of the course material.

Tavcom moved premises which gave them a training centre which is where the courses were held.

Kevin who was my line manager was very supportive of me and gave me the opportunity to learn and be involved more with responsibility, therefore, with certain courses I used to register the delegates and ensure they had all the correct ID for the course. I also started invigilating courses either at our premises or in London.

Mike Tennant also gave me the chance to do a trade show at the NIC which was great fun, an eye opener to say the least.

Mike and Jane Tennant always gave a good Christmas Party and we occasionally had a team building day out which one year was at Goodwood which was brilliant.

My time at Tavcom was amazing and It was a fantastic business to work for. We were an amazing team, always helped each other out when needed.

All the best.

Hollie xx
